

YALE UNIVERSITY ▪ SCHOLAR AWARD COMPETITION
THE GREENWALL FOUNDATION
Faculty Scholars Program in Bioethics

DEADLINES

- September 19, 2011 – internal deadline
- November 1, 2011 – sponsor deadline for preliminary applications

SPONSOR'S WEBSITE

- Program Website: <http://www.greenwallfsp.org/fspAbout.htm>
- Application Guidelines: <http://www.greenwallfsp.org/fspApply.htm>
- Advisory Board: <http://www.greenwallfsp.org/fspBoard.htm>
- Current Scholars: <http://www.greenwallfsp.org/fspScholars.htm>

FUNDING

- Each award provides 50% salary support and benefits for a period of 3 years.
- Each year the Scholars participate in a learner-centered educational program that includes required attendance at two workshops (spring and fall).

NOMINATION LIMITATION

Yale University may nominate one candidate.

PURPOSE

Scientific advances in the life sciences have raised dilemmas in public policy, research, and clinical practice regarding such issues as human cloning, stem cell research, gene therapy, and new information technologies. Effective approaches and resolutions to such problems may come from a variety of disciplines including medicine, law, philosophy, religion, other fields in the humanities, and the social sciences.

The Greenwall Faculty Scholars Program in Bioethics provides career development awards to enable outstanding junior faculty members to carry out original research that will help resolve important policy and moral dilemmas at the intersection of ethics and the life sciences. Support of this research is intended to help place recipients in a position to set public policy and standards of clinical practice. Preference is for research on innovative and emerging topics. Lower priority is given applicants working on institutional change, educational reform, or primarily theoretical research.

ELIGIBILITY

- Candidates must be junior faculty members holding at least a 60% appointment.
- Priority is given applicants who are below the rank of (tenured) Associate Professor, who have not received a comparable career development award, and whose work will have an impact on public policy or clinical practice.
- While the amount of an applicant's original work in bioethics will count favorably toward his/her application, outstanding candidates with less direct experience in bioethics will also be considered.
- Awardees are expected to spend at least 50% of professional time annually on the proposed project.

PAST RECIPIENTS CURRENTLY AT YALE

2010 ~ Jennifer P. Ruger, PhD

INTERNAL COMPETITION PROCEDURES

READ CAREFULLY and follow all instructions and guidance provided for internal competition submissions at: http://www.yale.edu/grants/funding_info/internal-competition.html
