

## AP Worklist Update – December 2007

### Project status:

- We have begun campus-wide rollout of the AP Worklist solution in partnership with the Business Operations Leadership Team.
- We will be meeting with departments at various business manager meetings to introduce the application, and to work with them to build a “go-live” schedule.
- If a unit wants to go-live now, they should contact their BOLT leader or Elizabeth Strawn (Procurement’s coordinator of AP Worklist deployment) at 2-8379 or [elizabeth.strawn@yale.edu](mailto:elizabeth.strawn@yale.edu)

### Next steps:

- The first high priority AP Worklist enhancements recommended by our pilot users will go into production during December. Version 1.1 enhancements include the ability to view Purchase Orders while in the Worklist and notifications to inform users of invoices awaiting their action.

If you have questions, please contact [robert.bores@yale.edu](mailto:robert.bores@yale.edu) or [elizabeth.strawn@yale.edu](mailto:elizabeth.strawn@yale.edu).
