

Scam Alert: “Compu Clean” (Kimwipes, etc.)

Recently, the Chemistry department received a call from a company called Compu Clean. An overly friendly caller, “Felicia”, indicated familiarity with Chemistry personnel and then claimed that she “was suppose to be out this week to handle our needs but wasn't going to make it.” Presumably to create confusion to lead to an acceptance of unrequested products, the caller also contacted another staff member.

“Compu Clean” is not a Yale vendor and going forward, the Vendor Compliance Unit will be especially watchful to ensure that this vendor is not set up in the Oracle system.

If you have questions regarding this potential scam, please contact Chris Mihok at 432-9980 or christopher.mihok@yale.edu.
