

## **Research Associate**

Citi Investment Research is a respected global leader in Equity Research. We publish thousands of research reports annually on various subjects that are designed to help our global client base.

### **Description:**

Citi Investment Research is seeking an Associate in the biotechnology equity research sector. In this position you will be responsible for conducting physician surveys, conducting due diligence on biotechnology products, writing industry/company reports, attending industry and medical conferences, preparing written material for First Call notes, and financial modeling.

Other responsibilities include servicing selective institutional and retail clients and attending company meetings, in support of the senior analyst coverage.

### **Qualifications:**

Team is seeking an individual who has already completed an MD, PhD, MD/MBA, or PhD/MBA program. Prior equity research experience, work in industry or business development in biotech or pharma is required.

This is the perfect opportunity for someone seeking to combine their knowledge of science and interest in finance.

The ideal candidate must be a self-starter, detail-oriented team player and possesses strong analytical, organizational, interpersonal, and communication skills.

Proficiency with both Word, Excel, and PowerPoint required. Ability to understand statistical methods in clinical trial designs is a plus. A strong interest in the equity markets is a must.
