

## McKinsey & Company Insight Program

McKinsey & Company, a management consulting firm with nearly 9,000 consultants in 90 offices across 50 countries, is hosting two exciting summer programs for students working towards advanced professional degrees: Insight Healthcare and Insight Engineering & Science. These programs will give non-MBA advanced degree students an insider's look into management consulting. Each of the comprehensive seminars will cover a range of topics important to those who are exploring alternative career possibilities. Program agendas include an overview of management consulting, an introduction to the type of work we do, a management consulting case study, and an opportunity to network with colleagues and participate in social activities.

We are hosting several web based presentations to help graduate students learn more about McKinsey & Company and our Insight programs. These presentations are designed for: MDs, residents, medical interns, fellows, PhDs and post-docs. If you are interested in attending one of these presentations please RSVP through our website: <http://www.mckinsey.com/careers/apd/Opportunities.aspx>
