

Igenica, Inc. is a biopharmaceutical company focused on the creation of breakthrough antibody-based therapeutics to address the unmet medical needs of cancer patients. The company is based on pioneering research by Prof. Robert D. Schreiber and Dr. Guoqing Chen and has developed innovative technology platforms for discovering novel tumor antigens and cancer antibodies. Igenica is backed by a strong syndicate of major VC investors and is supported by renowned scientific experts and advisors, including Drs. Fred Appelbaum, David V. Goeddel, Rick Klausner, Jeff Ravetch, Richard Ulevitch, and Emil Unanue. Igenica is based in the San Francisco Bay Area.

Igenica is currently seeking to fill the following position:

## Scientist

This is an exciting opportunity for a motivated individual to lead a research team in our drug discovery unit and play a key role in implementing our innovative technology platforms and developing antibody therapeutics for cancer. The successful candidate will drive antibody lead discovery and characterization efforts, including mechanism of action and *in vivo* proof of concept studies; develop novel tumor models and screening systems; and evaluate/implement other drug discovery approaches and new cutting-edge technologies.

This position requires a PhD in a relevant discipline and several years of proven experience in molecular cell biology and/or immunology as well as *in vivo* techniques ideally in oncology. Candidates must be able to work independently, and possess sustained research productivity demonstrated by a track record of publications and/or success in the industry. The candidates must have strong leadership skills and the willingness and expertise to work within a multi-disciplinary team of peers and outside experts. Outstanding written/verbal communication skills are essential.

**This position provides an excellent opportunity to contribute significantly to the growth of the company. We will provide a unique work environment, a competitive salary, stock options, and benefits. To apply, please include your name and this position title in the subject line of your email, and send your CV or resume to: [careers@igenica-inc.com](mailto:careers@igenica-inc.com). We are an equal opportunity employer.**
